JOINS HANDS WITH
THE CITY POST OFFICESchool System to Carry Out
Co-Operative Plan Adopted
by Board of Education.

HOLIDAYS NOT TO BE CUT

Plans for co-operation with the city post office: decision not to shorten the school holidays this year on account of the late opening of the public schools, and the reference to the corporation counsel of a question regarding the legality of appointments under certain conditions, were three subjects receiving the attention of the board of education at its meeting in the Franklin School yesterday afternoon.

The plans for co-operation between the schools and the post office, presented by Postmaster Merritt O. Chance and adopted by the board, are considered particularly significant by the school officials, as this is another step in carrying out the policy of the present administration to "link" the schools with various other institutions in a manner mutually beneficial.

The arrangement sanctioned by the board yesterday covers the following points: The children are to assist in the dissemination of postal information by carrying out the work of the post office, and the children are to be given an opportunity to be given for an inspection of the way in which mail is handled.

Essay Contest to Be Held.

An essay contest on post office work is to be held, and to fifteen or sixteen boys of legal age writing the best essays employment will be given during the holiday season, when the demand for extra help is made by the post office. In addition to the distribution of pamphlets, Postmaster Chance is to delegate a number of employees especially fitted for the work to lecture before the children on the work of the post office, and opportunity is to be given for an inspection of the way in which mail is handled.

Enters Appointment Claim.

When a vacancy really exists, from the legal point of view, was the gist of matters referred to the corporation counsel. In one case Miss E. E. Scipio, a graduate of the Miner Normal School, through her counsel, John Doyle Carmody, claimed that she should have been appointed to a position to which another graduate was appointed, because she was the next on the eligible list at the time the vacancy occurred. In this case a teacher died and another was subsequently promoted to fill her place, the vacancy caused by this promotion being the one over which the question arose.

At the time of the teacher's death, Miss Scipio was eligible for appointment. For administrative purposes, however, the changes necessary were not made until after the following classes of the normal school had been graduated, which brought a new list of eligibles forward and prevented the appointment of Miss Scipio. The other case, that of Miss Edna Boyd, is analogous in principle.

A proposition to use magazines dealing with current history, civics, science and similar topics, for use in connection with high school English, history and other studies, received favorable action by the board. The prizes for foreign-born students who should write the best essays on topics dealing with the United States, and calculated to instill them with patriotism, was made by the department of patriotic instruction of the D. A. R. The board accepted it.

Offers of Prizes Made.

Offers of prizes by the Washington Association of Credit Men in connection with a series of lectures which the organization has been giving at Business High School and by the American School Peace League also were accepted.

A proposition to distribute pamphlets dealing with scientific temperance instruction by the W. C. T. U. was referred to the committee on text books. Use of the Miner Normal School assembly hall for meetings was granted to the Teachers' Association. A photograph of the late Gov. H. D. Cooke, for whom the Cooke School is named, was accepted and the picture to be placed in the building.

Foot Ball Game Proposed.

A proposition for a foot ball game between the champion team of Washington's high schools and the champions of another city, as presented by W. A. Kimmell and D. A. Bynum, representing the Knights of Pythias, in which organization the plan was conceived, was taken under advisement. Mrs. C. M. Clark appeared before the board, asking its co-operation in the beautification and improvement of grounds around the Park View School. The board expressed a willingness to help so far as possible. Dr. John Van Schick, president of the board, requested that the minutes of the board be changed, to show that in the case of allowing the placing of the Ten Commandments upon the walls of the school, the board was of the opinion that the commandments may be placed in the rooms if desired by the teachers but the teachers should not be forced to place them in their rooms.

Winners of Galt Prizes.

Announcement of winners of the Galt prizes at Business High School in the recent contest was made, as follows: In commercial geography—First prize, \$30, Francis L. Tuck, subject, "Chocoma"; second prize, Miss Ruth E. May, \$20, subject, "Railroads in the United States"; In commercial history and sociology—First prize, \$30, Miss Edith L. Elliott, subject, "The Renaissance in Italy"; second prize, \$20, Miss Estelle L. Milne, subject, "The Renaissance in Italy". Announcement that F. J. Brunner, applicant for the position of instructor of swimming at Central High, had made 99 per cent, was received with favorable comment, and it was stated this was the highest percentage ever received by an applicant.

JUST MIX THESE THREE

TO MAKE

Quick Way to End
Coughs, Colds and CroupAn Excellent, Inexpensive, Home-Made
Remedy that is Prompt and Sure

If you have a severe cough or chest cold accompanied with soreness, throat tickle, hoarseness or difficult breathing, or if your child wakes up during the night with croup and you want quick help, just try this pleasant-tasting home-made cough remedy. Any druggist can supply you with 2 1/2 ounces of Pinex (50 cents worth). Pour this into a pint bottle and fill the bottle with plain granulated sugar syrup. Thus prepared, you have a pint of really remarkable cough remedy—one that can be depended upon to give quick and lasting relief at all times.

You can feel this take hold of a cough in a way that means business. It loosens and raises the phlegm, stops throat tickle

and soothes and heals the irritated membranes that line the throat and bronchial tubes with such promptness, ease and certainty that it is really astonishing.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, combined with guaiaicol, and is noted for its speed in overcoming severe coughs, throat and chest colds. Its millions of enthusiastic users have made it famous the world over.

There are many worthless imitations of this noted mixture. To avoid disappointment, ask for "2 1/2 ounces of Pinex" with directions and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded, goes with this preparation.
